BUSINESS SOLUTION
CTOUCH BRIX: FOR TEAMS

FROM TEAMWORK TO DREAMWORK

Bring the power of touchscreen interactivity into your Microsoft Teams environment with CTOUCH For Teams Go & For Teams Talk. Prepare your meetings. Work on documents during an interactive session. And share the results with all contributors afterwards. No matter where you, your colleagues or your business partners are!

Efficient, safe and with a twist of fun!

Share, inspire, have fun!
With CTOUCH by your side.

CTOUCH®

BUSINESS SOLUTION
CTOUCH BRIX: FOR TEAMS

Get a taste of a truly collaborative CTOUCH For Teams meeting

STEP 1. Room booking at your service
Got a killer meeting in store? Simply book a room via Outlook or Microsoft Teams. Your booking will appear on the screen!

STEP 2. Preparation time!
Prepare the files for the meeting you want to collaborate on. Store them in your own and known Microsoft Teams environment.

STEP 3. Connect swiftly and secure
Access your Microsoft Teams documents via the touchscreen by authenticating your credentials via a QR code.

STEP 4. Say hello to everyone!
Want to hold a video conference? Seeing everyone while you are working together helps to keep a lively spirit (only available on For Teams Talk).

STEP 5. Add a touch of writing and annotation
Write, mark and annotate directly on the touchscreen with a limitless writing space.
Use sticky notes and improve your handwriting with text recognition.

STEP 6. Surf the web on the go
With the integrated web browser you can visit any website you want during the meeting.

STEP 7. Share your work and exit
When your meeting is done, easily share files and notes directly from the touchscreen to all attendees. Exiting the meeting will clear all the data to ensure no secrets are left behind.

BRIX

A rock solid, futureproof BRIX solution
The CTOUCH For Teams Go and For Teams Talk are modular BRIX solutions that can be upgraded over time. Combine them with a CTOUCH touchscreen and you're ready for full collaboration. No worries when your needs change. Simply upgrade your BRIX module and you're set to go, without replacing the entire touchscreen. 100% futureproof.
