

# THX-8000-S

**Klipsch**  
THX CINEMA SERIES

## THX® ULTRA CERTIFIED

Works well with multi-channel movie and music presentations playing up to reference levels in rooms of 3,000 cubic feet or larger.

## CINEMA QUALITY SOUND

Employs an 8-inch aluminum woofer and a patent-pending horn array, consisting of two vertically-stacked Tractrix Horn-loaded tweeters.

## WIDE DISPERSION SURROUND TECHNOLOGY (WDST)

In order to create enveloping sound fields and precise localization of individual effects, this speaker also utilizes Klipsch's Wide Dispersion Surround Technology™. Also referred to as WDST, this no-compromise approach gives much more placement flexibility than conventional designs.

## MAXIMUM INSTALLATION RELIABILITY

This in-wall speaker also consistently delivers thrilling, realistic sound, whether it's installed horizontally or vertically. It features sure-grip mounting dogs that provide even pressure against drywall for long-term installation reliability, and includes a paintable grille that blends in perfectly with any décor.

## UNLIMITED FLEXIBILITY

Timbre matched to all of our THX-certified products, so you can mix and match to create an unbeatable, discreet stereo or home theater system that's just right for you.

## EDGE-TO-EDGE GRILL

Covering the whole of the speaker makes painting the product both simpler and quicker. Premium Neodymium magnets make it easy to install and remove and ensure a secure and flush fit without any moving parts. The flat grill allows better harmonization with today's modern interior designs and disappear into the background, enabling sound to take center stage.

## SPECIFICATIONS

SYSTEM	2-way in-wall surround
FREQUENCY RESPONSE	80Hz-20kHz +/- 3dB
POWER HANDLING (Cont/Peak)	100W/400W
SENSITIVITY	90dB
