

zappiti Drive 4K HDR

Quick Start Guide

GETTING STARTED

- Turn off your Zappiti Nas Rip Video & Audio Edition.

Zappiti Nas Rip Rear Panel

1. Connect your Zappiti Drive 4K HDR to the USB 2.0 port of your Zappti Nas Rip Video & Audio Edition using the supplied USB cable. (see image)
2. **WARNING!** Other USB ports are reserved for Zappiti certified technicians and should not be used.
3. Connect the power cord of your Zappiti Drive 4K HDR to an AC outlet.
4. **Switch ON** the ON/OFF button located on the rear panel of your Zappiti Drive 4K HDR.
5. Turn on your Zappiti NAS Rip Video & Audio Edition.

INITIALIZATION

- The Zappiti team will remotely initialize the Zappiti Drive 4K HDR at the request of the user. This request has to be made by email at the following address: support@zappiti.com. Do not forget to specify the serial number of your Zappiti NAS Rip Video & Audio Edition. This is printed on a label placed under the Zappiti NAS RIP. Intervention time: within 48 hours (Tuesday to Saturday).
